PROFILE

A Software Engineering graduate with a strong foundation in building scalable, user-centered web applications. Built and deployed full-stack applications featuring responsive, interactive frontends with React.js and robust RESTful APIs and backend services with Node.js and Express. Experienced with both SQL and NoSQL databases, real-time communication via WebSockets, and modern DevOps tooling. Focused on writing clean, maintainable code, continuously improving technical skills, and developing software solutions that deliver practical value.

TECHNICAL SKILLS

Frontend: React.js · JavaScript (ES6+) · HTML5 & CSS3 · Tailwind CSS · Bootstrap · Framer Motion

Backend: Node.js · Express.js · REST APIs · WebSockets · JWT Authentication

Databases: PostgreSQL · MySQL · MongoDB

Tools & DevOps: Git & GitHub · Telegram Bot API · PWA / Workbox · Postman · npm / pnpm

WORK EXPERIENCE

Software Engineer

April 2024 - May 2024

Hawassa University · Hawassa, Sidama, Ethiopia

Software Engineering Intern

- Built a Content Management System (Hu-IoT) using Joomla for managing university content, users, and pages. Implemented dynamic features using AJAX, JavaScript, PHP, and MySQL. Improved system usability and content management efficiency for administrators.
- Developed a full-stack e-commerce web application (AY Supermarket) with features including product management, cart, wishlist, and user authentication.

PROJECTS

Earnify [Live Demo ↗](#)

2026

React · TypeScript · Express · PostgreSQL · Telegram API ·

Full-stack platform enabling users to discover online earning opportunities, featuring referral tracking, real-time analytics, and an admin dashboard for managing listings, monitoring engagement, and distributing opportunities via integrated Telegram automation.

Spendlyt [Live Demo ↗](#)

2026

React · TypeScript · Node.js · PostgreSQL ·

Personal finance management app that helps users track expenses, manage budgets, and gain spending insights through a clean, intuitive interface with real-time updates, enabling better financial awareness and decision-making.

Planify [Live Demo ↗](#)

2026

React · TypeScript · Tailwind CSS · PWA ·

Progressive Web App for wedding planning that allows users to manage tasks, budgets, and guest lists, with offline functionality and installable mobile experience for seamless, organized event planning on any device.

[React](#) · [TypeScript](#) · [Tailwind CSS](#) ·

Client-side web application for creating and exporting professional CVs with real time preview, multiple ATS-optimized templates, auto-save functionality, and PDF export, enabling users to build polished resumes directly in the browser without backend services.

EDUCATION

Bachelor of Science in Software Engineering

2021 – 2025

Arba Minch University

Expected Graduation: 2025

CERTIFICATIONS

LIFE Digital Business Skills courses. *HP LIFE*
